| iv) I Have a Dream | d) Dr. Zakir Hussain |
| v) Bharat is My Home | e) Anton Chekhov |

Read the passage carefully and answer the questions that follow :

$$4 \times 1 = 4$$

The monsoon is a seasonal wind pattern that brings significant rainfall to various regions, particularly in Asia and Africa. It typically occurs between June and September and is driven by temperature differences between land and ocean. The warm landmass causes moist air from ocean to flow inland, resulting in heavy rains. Monsoons are vital for agriculture. They replenish water sources supporting crops like rice and tea. However, they can also lead to severe flooding and landslides, disrupting livelihood and infrastructure. Climate change has led to unpredictable monsoon patterns, causing either excessive rainfall or drought.

Questions :

- What is monsoon ?
- Which regions are most affected by the monsoon ?
- When does it rain ?
- How can climate change affect monsoon patterns ?

OR

C

[305/330]

Write a précis of the following passage and give a suitable title : 4

Effective leadership requires inspiring and motivating team members, communicating effectively with stakeholders, making strategic decisions and possessing strong interpersonal skills such as active listening and building trust. Cultivating these qualities creates a positive work environment and supports organizational success. Thus, a great leader is also a great negotiator who successfully influences and supports a team or group of people.
